“Grow Your Own”

Workshops just about every Saturday on lots of interesting agricultural topics.

2011 Fall Fair

August 27th

“Thank You for the Food You Grow”

Food Vendors are required to be “Food Safe.”

“We are Cash friendly,” ATM's are located at the pharmacy, grocery store and the gas station.

Thank you for buying locally

Your support encourages the development of a larger, healthier, community-based food system! Today the average food morsel travels an astounding 2,000 km to reach your plate. This has tremendous consequences, such as reduced freshness, taste and nutrition, high energy consumption and CO2 emissions, and reduced local economic health. Buying locally produced food is a healthy choice.
